Explain a tiny grip.

A loop goes somewhere. · Curiosity day

Name _____ Date _____

Choose a scene. Write two linked sentences: one observation, then an explanation using because. Draw a detail that supports your idea.

The rear catches up

A grip, then a reach

The leaf keeps a clue

Draw the detail you noticed. Add an arrow to show movement or a dot to show position.

prolegs · anchor · loop · reach · evidence · inference · because

The middle rises because … What happens when the rear gets closer to the gripping front?

The rear grip matters because … What keeps the body in place while the front reaches?

I infer that it moved because … Compare the head with the same vein fork in both sketches.

Reread your words. Does the detail support your explanation? Check the first capital and each ending mark.
