WONDER DAILY **GROWN-UPS ONLY**

Quiz cards · answer key

How Holograms Work

Q1 · B. They cancel into calm

A bump and a dip cancel, so the water goes calm. Light waves can do this too.

Q2 · A. Fine light and dark stripes

The film records the stripes where two laser beams crossed.

Q3 · A. The whole shell

Every part of the film saw the whole shell, so each half shows all of it.

Q4 · C. A reflection in slanted glass

Slanted clear glass reflects a lit figure, so it seems to float.

C1 · Say it your way

groove: a long, thin dip cut or pressed into a surface.

C2 · Draw it

Look for: Does your sentence tell what you noticed and use because or maybe to explain?

The cards name a key marker such as KEY Q2. Answer positions are shuffled for this sheet, so use the letters on this page, not the order in the web quiz. Print the cards and this key separately.
