Give the morning your words.

Soap Bubbles · Curiosity day

Name _____ Date _____

Choose a bubble scene. Look, say an idea, then draw or write.

A first bubble

Colors that swirl

A careful pop

Draw a bubble wall. Label the film and the air inside. Mark where colors swirl.

soap film · interference · surface tension · evaporate · sphere · because

At first, … what lifts into the air?

Then the colors, … what makes them shift?

When it pops, … what happens to the film?

Read your words aloud. Did you connect a clue (color, shape, or pop) to an explanation?
