

Explain a tiny grip.

A loop goes somewhere. · Curiosity day

Name _____

Date _____

Choose a scene. Write two linked sentences: one observation, then an explanation using because. Draw a detail that supports your idea.

The rear catches up

A grip, then a reach

The leaf keeps a clue

Draw the detail you noticed. Add an arrow to show movement or a dot to show position.

prolegs · anchor · loop · reach · evidence · inference · because

The middle rises because ... What happens when the rear gets closer to the gripping front?

The rear grip matters because ... What keeps the body in place while the front reaches?

I infer that it moved because ... Compare the head with the same vein fork in both sketches.

Reread your words. Does the detail support your explanation? Check the first capital and each ending mark.
