PRETEND NOTEBOOK · HEIGHT ABOVE SOIL

Compare from the soil level. This painted stick is not a scale ruler.

Day	4	8	12
Height	8 cm	14 cm	23 cm

Use the pretend notebook numbers. The picture is not a ruler.

1. Day 4: 8 cm. Day 8: 15 cm. How many cm did it grow in between?

14 - 8 = _____

Show your thinking.

2. Day 12: 23 cm. From Day 8 to Day 12, how many cm did it grow?

23 + 9 = _____

Show your thinking.

3. How many days from Day 4 to Day 12?

12 - 4 = _____

Show your thinking.

4. From Day 4 (8 cm) to Day 12 (23 cm), how many cm of growth in all?

23 - 8 = _____

Show your thinking.

5. It grows 4 cm one day and 4 cm the next. How much growth together?

4 + 4 = _____

Show your thinking.

6. You watch for 7 days. You already watched 3. How many days are left?

7 - 3 = _____

Show your thinking.

A bean rests in an open hand. "Is anything in there?" Inside, a tiny plant waits. Stored food will help it begin before leaves can cook new food.

With water, air, and enough warmth, a root tips out first. It grows down with gravity. A shoot climbs toward light. Two directions from one quiet start.

Leaves unfold in the light. They use light, water, and carbon dioxide from the air to make food. Now the plant can make more of what it needs.

"It looks the same," says Little Wonderer. Big Wonderer opens the notebook. Yesterday's mark sits lower than today's tip. Notes catch slow change.

WONDER DAILY

A bean becomes.

The quiet work of growing

Make a little book.

1. Print one-sided: US Letter, portrait, actual size / 100%. No fit. Headers/footers off.
2. Fold long edge to long edge; reopen. Fold short edge to short edge, then in half again. Open: eight boxes.
3. Cut only the solid center line across the middle two boxes. Keep the outer boxes joined.
4. Refold long edge to long edge, print outside. Push ends together to open a diamond, then a cross.
5. Wrap into a book with page 1 in front. Follow pages 1 to 8.

Pictures are simplified and not to scale. Look closely, wonder, and pause whenever you like.

One leaf. Six steps. A story that keeps going.
GRADE 2

They sit by the window. Growing takes time. "What might change next?" Little Wonderer keeps a new question for tomorrow.

They look back at the beginning. Did the bean need open leaves to start? Inside, the tiny plant already had stored food — a lunch packed before the first leaf.

Tell the bean's small story.

A bean becomes. · Curiosity day

Name _____

Date _____

Choose a scene. Look closely, say your idea, then draw or write what the picture helped you understand.

A beginning inside

Two ways to grow

Leaves in the light

Draw the seed, root, or leaf you chose. Label one part and add an arrow to show what it does.

seed · stored food · root · shoot · leaf · light · water

Inside the bean, ... What is kept there?

.....

The root grows ... Where does it go? What does it take in?

.....

The leaf uses ... What helps it make food?

.....

Read your words aloud. Can you point to the part they explain? Add a capital letter and an ending mark if you are writing.

.....
