Write the path of a shift

How Bike Derailleurs Work · Curiosity day

Name _____ Date _____

Choose one clue. Say the whole idea, then draw or write it.

A sideways nudge

Two little wheels

Easy gear, hard gear

Draw one bike gear clue and add a small arrow to the part whose job you explain.

gear · chain · cog · teeth · derailleur · cable · spring · lever · shift · easy gear · hard gear

When the lever pulls the cable, … dictate what the rear derailleur does

The lower pulley keeps the chain snug by … dictate how it takes up slack

A big back cog feels easier because … dictate what changes for each pedal turn

Does your sentence name a part, tell what it does, and connect that job to the chain?
